1. Game
2. Architecture
3. Conclusion
4. Play!

- a lot of time for initial training of the different areas
 - MapBiquitous
 - Mobilis
 - Android
- to use not yet completely developed technologies can be hard
- for the testing of our project we needed at least 4 devices
 - but simulating them on a pc takes a lot of time
 - time-consuming testing for little changes

- the game in action
